

Recurrence Feature Test

This page tests the recurring tasks feature in the Daily Tracker app.

Prerequisites

Make sure the Daily Tracker is running at: <http://localhost:8080>

Run All Tests

Clear Test Data

10:38:10 PM: Starting recurrence feature tests...

10:38:10 PM: Test 1: Checking for recurrenceRules in storage...

10:38:10 PM:  Test 1 PASSED: recurrenceRules field exists

10:38:10 PM: Test 2: Creating a daily recurrence rule...

10:38:10 PM:  Test 2 PASSED: Recurrence rule created successfully

10:38:10 PM: Created rule: { "id": "test_rule_1755405490406", "name": "Test Daily Standup", "task": { "title": "Attend daily standup meeting", "priority": "high" }, "pattern": { "type": "daily" }, "enabled": true }

10:38:10 PM: Test 3: Creating a weekday recurrence rule...

10:38:10 PM:  Test 3 PASSED: Weekday rule created

10:38:10 PM: Test 4: Creating a weekly recurrence rule (Mon, Wed, Fri)...

10:38:10 PM:  Test 4 PASSED: Weekly rule with specific days created

10:38:10 PM: Days selected: 1, 3, 5

10:38:10 PM: Test 5: Testing rule enable/disable...

10:38:10 PM: ✗ Test 5 FAILED: Rule disable failed

10:38:10 PM: ---

10:38:10 PM: Total recurrence rules in storage: 6

10:38:10 PM: Test complete! Check the Daily Tracker app Settings > Recurrence tab to see the rules.

10:38:10 PM: The recurrence engine will create tasks based on these rules on the next app load.
